

SETLIST CHECKLIST

Becoming a successful artist involves more than just talent and passion; it requires strategic thinking, hard work, and a genuine connection with your audience. Here is a step by step checklist to ensure you create an experience for your audience each and every time you step out on stage.

- Write down the name of every single song you have in your catalogue**
- Rank each song in terms of the energy it generates using the acronym TEMPO. From chill energy “Tranquil”, (think “Hurt” by Johnny Cash) to Easy Going, Moderate, Pumped, and finally, crazy-wild “Overdrive” (think “Rock Show” by blink-182). This is known as Vibe Ranking.**
- Organize your songs by their vibe. This will be critical for set design.**
- Write on another page the numbers 1 through 8. This will represent your setlist**
- Place an M in spot number 1 and 2**
- Place a M/P in spot 3 (typically your best song)**
- Place a E in spot 4**
- Place an M/P in spot 5**
- Place a P in spot 6**
- Place a T in spot 7**
- Place an O in spot 8**

Remember, people will go to your show for one of three reasons: to be inspired, experience moments with others (including you!) or to be transformed. What are you going to that people remember?

If you wanna know what I think, let's chat about where you're at right now, where you want to be and what obstacles are in your way. [Watch this video](#) and [book an audition](#) if you dig the vibes. Cool? [Check out the only three things you need to make a great show](#) and let's see what kind of magic we can make.

Peace,

Mike Schwartz | Founder & Director of Performance, Music Fit Collective
